

## STATEMENT OF INTENT

by

Anne Germain

& Any Other Production Company or Organisation with whom she works

### PUBLIC DEMONSTRATION OF MEDIUMSHIP DURING WHICH FILMING or PHOTOGRAPHY MAY BE UNDERTAKEN

During this demonstration it is my intention to demonstrate my personal belief that life continues after death and that as a medium I am able to act as a communicator between this world and the spirit world.

My intention is that this demonstration is evidence based. However, because evidence is very subjective and very personal it is quite hard to define. What is evidence to one person may not be to another and vice versa. Although evidence can take many forms it should be evidence that is personal to you and means something to you. This could be in the words or mannerisms that can be attributed to the person coming through or in the form of more direct evidence such as ages, names, descriptions, memories, how they passed, anniversaries or something similar. These are, however, just examples. Even if the message does not contain these it could still provide the evidence that you need.

Sometimes evidence that is given will not be immediately identifiable. It may only be in discussion with other members of the family that information comes to light that the recipient may not have previously known, or as our memories are not always as clear and accurate as we might like, we may not recognise the evidence until later. It should also be remembered that not all mediums work in the same way. Mediums are individuals and as such they each have their own way of working.

Although part of the message I give you may contain spiritual advice and guidance I would like to make it clear that it is only advice and/or guidance. As a recipient of the message you are personally responsible for any decisions you make. I will pass on the message that I am given, however, it is my interpretation of that message. I am not responsible for any choices you, the recipient, may make as a result of the message.

I will as a medium will

- not reveal personal, private or intimate information that is obviously confidential in a public arena nor will I deliberately embarrass or belittle a member of the audience.
- not disclose to any other party who was not present at the public demonstration that you or any other individual had been given a message during the demonstration and/or any content of any such message.

As the recipient

- by attending this public demonstration you are agreeing to being filmed and/or photographed during the demonstration with a possibility of this filming and/or photographs may or may not be used by Anne Germain Ltd or another company in production of individual television shows for future broadcast or future advertising material.

Because it can often seem that as a medium I use jargon I will try to make sure that I always explain any words or phrases that may be confusing. However, if there is anything you do not understand please ask and I will endeavour to explain. You should remember, however, that because spiritual philosophy is a matter of interpretation there is often more than one acceptable explanation therefore I ask that you keep an open mind.

I hope that you will enjoy my demonstration and find it to be positive and uplifting experience.
