

STATEMENT OF INTENT

by
Anne Germain

PRIVATE DEMONSTRATION OF MEDIUMSHIP (also known as One to One Private Readings)

During this demonstration of mediumship it is my intention to demonstrate my personal belief that life continues after death and that as a medium I am able to act as a communicator between this world and the spirit world.

Because evidence is very subjective and very personal it is quite hard to define. What is evidence to one person may not be to another and vice versa. Although evidence can take many forms it should be evidence that is personal to you and means something to you. This could be in the words or mannerisms that can be attributed to the person coming through or in the form of more direct evidence such as ages, names, how they passed, anniversaries or something similar. These are, however, just examples. Even if the message does not contain these it could still provide the evidence that you need.

Sometimes the evidence that is given will not be immediately identifiable. It may only be after discussion with other members of the family that information comes to light that the recipient may not have previously known. Or, because our memories are not always as quick and as accurate as we might like, we may not recognise the evidence until later.

Although part of the reading I give you may contain spiritual advice and guidance, or advice and guidance about personal and private matters, I would like to make it clear that it is only advice and/or guidance. As a recipient of the reading you are personally responsible for any decisions you make. I will pass on the message that I am given, however, I am not responsible for any choices you, the recipient, may make as a result of the reading.

As an Evidential Medium I will

- not reveal personal, private or intimate information to any other party.
- not disclose to any other party that I have given any individual person a private reading.
- record the reading and place either on a CD or send by electronic format for you to keep and listen to again in the future.

As a recipient I request that

- you give answers of 'Yes', 'No' or 'You Understand' or 'Don't Understand' in acknowledgement of information passed from spirit.
- you state if you do not understand the information or wording of information passed from spirit to enable me to ensure clarification from spirit on your behalf.
- by agreeing to the reading you are also agreeing for the reading to be recorded for your personal use in the future either being placed onto a CD or sent electronically to you by email.

IF YOU DO NOT UNDERSTAND SOMETHING THAT I HAVE SAID

It can often seem that as a medium I use a particular form of language that is new to you. I will try to make sure that I always explain any words or phrases that may be confusing. However, if there is anything you do not understand during the reading please ask me and I will endeavour to explain; however, because spiritual philosophy is a matter of personal interpretation there is often more than one acceptable explanation.

With payment for a reading you are in effect paying for the time spent with me and not for the communication with those in the realm of spirit; I therefore do not offer refunds following the completion of the private reading.
